

Never miss a moment

WINTER 2020

Find your flow state

The only thing on your mind is the next turn.
Make time this winter for more of these moments.

Take it to a whole new level.

We're excited about the changes.
You will be too.

MORE WATER

Over the summer we got busy creating an \$11.3m reservoir to add 40 Olympic swimming pools of water to the resort supply. The new water storage sits high on the northside at Boggy Creek helping secure a bright future for Mt Buller. 100 megalitres adds up to a lot of snowmaking, emergency fire fighting, alpine bog management, morning espressos and loads of washing.

MORE SNOW

With more water in the mix, you'll notice the snowmaking network has expanded this winter. Look forward to more days hitting Standard Run and Men's Downhill with new guns boosting the base on these southside favourites. Mt Buller has tipped in another \$2m to improve snowmaking and guarantee even more cover for your turns into the future.

CH-CH-CHANGES IN THE VILLAGE

The transformation of the Kooroora development is complete with 25 stunning new apartments now overlooking the Square and an underground parking garage – book a VIP parking space online! Browse the stylish new retail spaces, take in the local stonework and mingle by the fire-pit outside the completed Kooroora Hotel. The Freeride store is back for the snowboarders too!

ADD A LITTLE ART

Make sure you browse through The Gallery this winter. An inspiring new home for Tony Harrington's acclaimed photography it creates a space in the heart of the village for films, exhibitions and talks. You'll find The Photo Shop service tucked inside.

IT'S ALL ABOUT FIT

Put yourself in the skilled hands of trained podiatrists at Ortho Ski and enjoy the comfort of professionally fitted boots. Look for the new store within a store in Altitude – it will change your skiing and your feet forever!

Never miss a moment...

Counting the days. See you soon.

Book it online. Snap up a deal.
Pack that new sweater.
Plan dinner with friends.
Choose a playlist for the trip up.

JUST UP THE ROAD

It's that perfect combination; you feel a world away in an easy 3 hour drive out of Melbourne. Embrace the road-trip with stops for photos and coffee, or hop a regular coach service out of the city and kick back as the view rolls by. If you are coming from further afield for a snow fix Mt Buller is the closest major alpine resort in Australia to an international airport. You'll be glimpsing snow before you can say, 'are we there yet?'

EARLYBIRDS SAVE ONLINE

Love that smug feeling of knowing you paid less than everyone else? Jump online and lock in a deal nice and early. Pre-pay it all – from parking to passes, accommodation and activities to know you've bagged the best price at mtbuller.com.au. It's easy to bundle the lot and relax knowing you've saved at least 20%. Skip the line in resort for more time on snow, with spare change for important things, like a long lunch!

DON'T FORGET SPRING

The snow is often deepest in September and did we mention we tend to get more sunny days? Embrace the party vibe on the slopes in spring with '80s Day and Pond Skim just two of the many great reasons to get up here. Save while you ski and work on your goggle-tan with lift passes going cheap, Kids Stay Free packages and parking and accommodation discounted to boot and less of the stuff you'd rather skip (like lift lines).

WORK IT MID-WEEK

Shuffle your diary and discover the mellow delights of mid-week. Off-peak pass prices are just the beginning. Revel in sweeping turns on uncrowded slopes, take it easy with the locals over coffee between runs at Koflers or Tirol and make a last-minute decision to stay the night. It's all possible mid-week and you'll wonder why you've not done it before.

Your mountain is waiting, so get on your way!

DR SEUSS

Act like a kid. Especially if you're an adult.
Learn something new. Throw snowballs.
Pat a sled dog. Slow down. This is family time.

SCHOOL THAT'S FUN

The kids love going to 'school' when it's on skis and snowboards and there is hot chocolate involved. You will love seeing them master new skills (and then teach you a thing or two!) Experienced instructors make learning a joy and everyone in the family can take it at their own speed with group lessons or private classes at any level.

KIDS ARE BIGGER

Your teenagers still feel like kids to you, so we include them in children's pricing all the way through to Year 12s. It helps stretch the family snow budget further and we know you'll need those dollars for all that extra pizza they eat!

KIDS STAY FREE

Your family is part of our winter family, so two kids under 15 can stay free with two adults in June and September at many hotels and lodges. Look out for other free family experiences like snowplay in the Village, toasted marshmallows and entertainment on mid-winter weekends.

PACK IT ALL IN

You'd think all that skiing and snowboarding would tucker everyone out, but with so many things to do up here you'll need to save some energy. Book in a thrilling sled dog ride, bounce in the Buller Air Zone with Olympic athletes, head to the movies or book in your own private photo shoot.

The mountains are calling – let the others go to voicemail

Reconnect.
Recharge.
Relax.

A LITTLE 'YOU' TIME

Tell the office you don't have phone reception so they leave you alone, but rest assured you can stream that Netflix series if you need to binge. This is the place to do you. First tracks and clocking up as much vertical as you can on over 80kms of runs is one option, doing gentle turns on the way to a lazy on-snow lunch is another.

APRÈS

Like Vegas, there's a rule that anything that happens above 1500 metres stays up here. So let your hair down and discover the fun that is après. Party with old friends and make new ones – until 3am when they play "That's Amore" at the Koorroora and send you home! Explore new bars, sip on a spritz as the sun sets. Join friendly locals for a game of darts or shark the pool table.

COOL BITES

There's a whole lot more than carbs and burgers going on up here these days. Check out fresh local produce, degustation menus, Euro-inspired fondue and schnitzels, smoky BBQ bites and everything in between with around 40 places to nom-nom-nom. [And burgers too! Because they are just so good after a day on the slopes!]

MAKE IT LAST

Stay a few nights and sink into the alpine lifestyle with over 8000 beds (ski-in, ski-out) including luxe hotels or simple lodge vibes – who's in for scrabble and fondue? Get a few friends and cosy up in a swank apartment – a perfect way to mix up some big days (and nights on the razzle) with some chilled evenings on the couch with a glass of red.

TREAT YOURSELF

Snow time is about indulging yourself or those you love, so get a couple's massage and spa session, pop the question on a chairlift ride and book that special dinner. While you are being kind to yourself, how about taking a one-on-one ski lesson with Franz to work on your turns, getting a pro fit so you finally have boots you love to ski or board in or even getting some new gear?

When was the last time you did something for the first time?

From pint-sized toddlers to high-speed racers there are lessons to take your skiing and riding to the next level.

START YOUR ENGINES

If you're new to this caper we've got you covered with everything from a free Discover lesson and access to beginner lifts for an economical first day through to a customised private session for the VIP treatment. See the trail map on p.27 for the lifts marked in purple. Skip the fight with that friend who says they will teach you (it never goes well!) and get a professional on the job. You'll be sliding, stopping safely and oh so proud of yourself by the end of the day!

DISCOVER LESSONS
FREE FOR 2 HOURS

SOMETHING FOR EVERYONE

Most of us can do with a brush up on our skills and there are plenty of options including group lessons at all levels for all ages. Choose a morning class, a discounted afternoon session or a private booking for as little or long as you need. Get a few friends together and make up your own private group to focus on whatever you like.

ONE-ON-ONE
PRIVATE SESSION

THE MAGIC HAPPENS IN THE FOREST

The littlest skiers on the mountain get started in the safety of the Magic Forest and it doesn't get much cuter than this. Toddlers from just 3 years make their first turns under the watchful eye of specialist instructors with professional photographers capturing the special moments.

GROUP CLASSES
FUN WITH FRIENDS

Never miss a moment...

Where memories are made
